## LOCAL COMMUNITY MANAGER EARNS PROFESSIONAL CREDITS

Mr. Patrick Crocetta of The Fairways recently completed the initial educational requirement for the Accredited Community Manager (ACM) program. The ACM Program was developed by the Manufactured Housing Educational Institute (MHEI®).

The Accredited Community Manager program culminates with a professional designation for manufactured home community managers awarded by MHEI, an affiliate of the Manufactured Housing Institute. The Manufactured Housing Institute, located in Arlington, Virginia, is the national association representing the manufactured housing industry. The ACM designation is awarded to community managers who complete the requirements set by the MHEI.

The three-day program covered all aspects of manufactured home community management. A special program reviewing state law was included in the course.
